SMITRAJ MAKVANA

Full Stack Developer

smitrajsinhmakvana@gmail.com | +91 9327178482 | github.com/Smitraj24 | linkedin.com/in/smitrajmakvana

PROFESSIONAL SUMMARY

Full Stack Developer with 9 months of practical experience (5-month internship plus 4 months in a full-time developer role) building and maintaining web applications end to end. Skilled in React.js, Next.js, Node.js, Nest.js, Express.js, MongoDB, and PostgreSQL, with hands-on experience in REST API integration, authentication, super admin panel and dashboard development, and responsive UI design. Comfortable working independently, learning new tools quickly, and debugging across the full stack to ship reliable features.

TECHNICAL SKILLS

- Languages: Java, JavaScript
- Frontend: React.js, Next.js, HTML, CSS
- Backend: Node.js, Express.js, Nest.js
- Databases: MongoDB, PostgreSQL, MySQL
- APIs & Auth: REST API design & integration, authentication & authorization
- Concepts: OOP, Data Structures & Algorithms, CRUD operations, responsive design
- Tools/Platforms: GitHub, VS Code

PROFESSIONAL EXPERIENCE

Full Stack Developer | *Krishang Technolab* **4 months (Present)**

- Develop and maintain full-stack web applications using React.js, Next.js, Node.js, Nest.js, Express.js, MongoDB, and PostgreSQL.
- Build and integrate REST APIs connecting frontend interfaces with backend services and databases.
- Implement authentication and authorization flows to secure application features and user data.
- Perform database operations (CRUD, queries, schema updates) across MongoDB and PostgreSQL, and debug issues to maintain stability and performance.
- Develop and refine responsive UI components, collaborating on feature development from requirements to working, tested functionality.

Web Development Intern | *Krishang Technolab* **5 months**

- Contributed to real-world projects, including Super Admin Panel and dashboard development, and built user management modules covering role-based access, user data handling, and CRUD operations.
- Implemented authentication features and integrated REST APIs to connect frontend and backend systems.
- Developed responsive, user-friendly web interfaces and assisted in debugging and testing to improve reliability before release.

PROJECTS

Villa Vista — *Node.js, Express, MongoDB, EJS*

- Built a vacation rental platform inspired by Airbnb using Node.js, Express, and MongoDB, with CRUD operations for property listings and a real-time booking system.
- Added secure user authentication and a responsive, user-friendly interface.

Password Manager — *React.js, Node.js, Express, MongoDB*

- Developed a secure password manager web application using React.js, Node.js, Express, and MongoDB, with Bcrypt encryption and user-specific access control.

EDUCATION

B.Tech in Computer Engineering, Ganpat University 2022 – 2026

XII, GSHSEB — Sankalp School of Science — 79% 2021 – 2022

X, GSHSEB — Vivekanand Vidyalaya — 78% 2020 – 2021

CERTIFICATIONS & ACHIEVEMENTS

- Java — Infosys Springboard | Python — Cisco (2025) | Web Development — IBM SkillsBuild (2025)
- IBM SkillsBuild Project-Based Learning Program, 2025
